

June 25 2020 Election Results
Windham Northeast Union Elementary School District

All articles on the ballot passed decisively by voters in all three towns, with 76% of voters approving the proposed budget.

“The vote by the communities of Westminster, Athens, and Grafton on Thursday, June 25, in favor of the budget, Board members, and the other articles on the ballot was deeply gratifying. It was a decisive statement of support for public education in a period of deep economic uncertainty, and despite the opposition of our communities to forced consolidation. We are grateful to all who came out or who cast absentee ballots, as well as those who manned the voting booths and counted the ballots in the middle of the current pandemic. We are particularly grateful to our town clerks and elections officials for all their efforts.

Personally, I think the results were also a vote of confidence in our current Board members. Despite the unprecedented numbers of challenges they have faced, despite the extraordinary hours they were asked to put in, and despite the very different communities they all represent, they have distinguished themselves by their collegiality, focus, and willingness to find common ground. They have been an absolute pleasure to work with and a credit to the communities they represent.”

Jack Bryar, Chair, WNUESD
